The screenshot shows the Springer Link page for the book "Electronic Engineering and Computing Technology" edited by Sio-iong Ao and Len Gelman. The page includes a navigation bar with "Springer Link" and "Log in" options. Below the navigation bar, there are links for "Find a journal", "Publish with us", "Track your research", and a search bar. The main content area features a book cover image, the title "Electronic Engineering and Computing Technology", and the editors' names. A description of the book is provided, along with a "Part of the book series" section. On the right side, there is a "Buy it now" section with a "Buy eBook" button and a table of pricing options for eBook, Softcover Book, and Hardcover Book.

Home > Book

Editors: [Sio-iong Ao](#), [Len Gelman](#)

The book offers the state of art of tremendous advances in electronic engineering and computing technology

It serves as an excellent reference work for researchers and graduate students working with/on electronic engineering and computing technology

The volume contains revised and extended research articles written by prominent researchers

Includes supplementary material: [sn.pub/extras](#)

Part of the book series: [Lecture Notes in Electrical Engineering](#) (LNEE, volume 60)
