Intelligent Automation and Computer Engineering

Home > Book

Editors: [Xu Huang](#), [Sio-Iong Ao](#), [Oscar Castillo](#)

Offers the state of the art of tremendous advances in intelligent automation and computer engineering

Serves as an excellent reference text for researchers and graduate students, working on intelligent automation and computer engineering

Contains sixteen revised and extended research articles written by prominent researchers

Part of the book series: [Lecture Notes in Electrical Engineering](#) (LNEE, volume 52)

28k Accesses | **53** Citations
